FOREWARD

National Statistics Bureau (NSB) is pleased to release the Consumer Price Index (CPI) Bulletin for January 2015. This is the 15th series of monthly CPI Bulletin published by National Accounts and Price Division, NSB.

The Bulletin is compiled using December 2012 as the price reference period and tracks the price movements of 436 commodities and services in 20 districts and 2 major urban areas. The rebased CPI uses the Geometric Modified Laspeyres formula, and has separate indices for domestic and imported goods and services.

We thank all agencies and stakeholders for their support in bringing out this bulletin and look forward for their continued support.

March 2015

National Statistics Bureau

GRAPH 1: YEAR-ON-YEAR INFLATION

YEAR-ON-YEAR INFLATION RATE

The annual inflation rate for February 2015 [i.e., from February 2014 to February 2015] rose by 6.32%. This was 0.06 percentage point higher than the previous month which was 6.26%. Price of food has risen by 4.77% and non-food by 7.37%. Within the food group, milk, cheese and egg recorded an increase of 10.14% followed by meat prices which rose by 9.76%. Among the non-food, the prices of vehicle recorded the highest increase with about 37% followed by house rent with 14.79%.

Prices of local produced goods & services increased by 6.95% while imported goods increased by 5.86% over one year period [i.e. from February 2014 to February 2015].

GRAPH 2: MONTH-TO-MONTH INFLATION RATE (OVERALL, DOMESTIC AND IMPORTED)

MONTH-TO-MONTH INFLATION RATE

The Month-to-Month inflation for February over previous month of January was 0.23%. Food price has risen by 0.05% and Non-Food by 0.36% over the previous month.

Prices for domestic goods and services increased by 0.48% on average over the previous month with corresponding increase in non-food and food prices by 0.63% and 0.22% respectively. Imported goods increased by 0.01% only due to decrease in food prices by 0.07%. However, the Non-food price has gone up by 0.07. The minimal increase in imported goods was also due to the decreasing fuel prices by about 5% between January and February.

GRAPH 4: PURCHASING POWER OF NGULTRUM (PPN)

The PPN, as measured by CPI was 84 Ngultrum as of February 2015. This means, Ngultrum 100 in February 2015 is worth only Ngultrum 84 at December 2012 prices. The PPN has decreased by 5.95 percent in the past 12 months (i.e. from February 2014 to February 2015) due to price rise in the economy.

TECHNICAL NOTES

1. concept and Definition of CPI

The Consumer Price Index (CPI) is a measure of changes in the average retail prices of a market basket of goods and services purchased by households for day-to-day living. It shows how much, on average, prices of goods and services have increased or decreased from a particular reference period, commonly known as the base period.

2. Uses of CPI

- ✓ As an economic indicator: CPI is one of the major indicators that determine the effectiveness of an economic policy. It is used to formulate fiscal and monetary policies and monitor their effect on the overall economy. Business executives, labor leaders, and other private citizens use CPI as a guide to make economic decisions.
- ✓ As a means of adjusting income payments: -Many collective bargaining agreements use CPI to determine wage rates, and index various payments to adjust the effects of inflation.
- ✓ As a deflator of economic series: CPI or its components is used as a deflator to adjust for price changes in various economic data series (e.g., GDP).

3. Weights

The weights reflect the relative importance or contribution to the total consumption expenditures of all households. It is determined using the spending patterns of households during some previous weight reference period.

It is important for the weights to reflect the current consumption patterns of the household. The more current the weights, the more reflective they are of current consumer spending patterns. The international standards recommend rebasing CPI every 5 years.

The current CPI weights were updated in 2012 following the conduct of the Bhutan Living Standard Survey (BLSS) in March – May 2012. Expenditure details were broken down into imported and domestic goods to facilitate calculation of domestic and imported inflation.

4. Reference Period

There is no single "base period" for a price index. It can mean different things to different users. In practice, there are three "reference periods" used.

✓ Weight Reference Period is the period during which household consumption values are

collected. The weight-reference period for the new rebased CPI is 2012, that is, the period when the BLSS was conducted.

- ✓ Index Reference Period is the period when the index is set to 100. In the new CPI, the index reference period is December 2012.
- ✓ Price Reference Period is the period of the first price of each product used to calculate the elementary indices (indices for individual CPI items). The price reference period for the new CPI is the fourth Quarter 2012.

5. Index Calculation Formula

Geometric Modified Laspeyres formula is used to calculate the CPI:

$$_{P_{GYo}} = \prod_{i=1}^{n} \left(\frac{P_i^t}{P_i^0} \right)^{s_i^b}$$

 S_i^b = Expenditure Shares of the Base Period (weight from BLSS)

 P_i^t = Current Period Price

 P_i^o = Previous Period Price

$$\left(\frac{P_i^t}{P_I^o}\right) = \text{Price Relatives}$$

6. Market Basket

Market basket refers to a sample of goods and services which is representative of all goods and services purchased by the households. The present market basket has 436 items, as compared to 363 items in the previous CPI basket. The new re-based CPI uses the Classification of Individual Consumption According to Purpose (COICOP). The 12 major groups are:

- 1. Food and Non-Alcoholics Beverages;
- 2. Alcoholic Beverages & Narcotics;
- 3. Clothing and Footwear;
- 4. Housing, Water, Electricity, Gas and Other Fuels;
- 5. Furnishing, Household Equipment and Routine Household Maintenance;
- 6. Health;
- 7. Transport;
- 8. Communication;
- 9. Recreation and Culture;
- 10. Education:
- 11. Restaurant and Hotels;
- 12. Miscellaneous Goods and Services.
