Preface

The Annual Dzongkhag Statistics of Tsirang is the second in the series of publications. It attempts to provide comprehensive statistics of Tsirang Dzongkhag and will be published annually.

The report contains statistics on demographic and socio-economic, environment, culture, local governance and infrastructures of the Dzongkhag. The statistical data for this publication are collected and compiled from various sectors and through primary sources.

We hope that this report will serve as a source of information and guiding tool for micro-level planning and decision-making in the Dzongkhag. Statistics office, Tsirang would like to thank and acknowledge the support and cooperation of all sector heads concerned for providing timely information for this report. Without their support, this publication would not have been possible. Through this initiative, we also hope that the maintenance of sectoral information and updation in the Dzongkhag will become more systematic and efficient henceforth.

Since this report is the second publication and with information source being from numerous sectors, we expect there may be certain deficiencies in terms of coverage and updation. However, there will be continuous efforts made to improve its coverage and quality in our future publications. Your comments and suggestions in this regard will be highly appreciated.

Statistics Unit, Tsirang Dzongkhag.

Background

Tsirang Dzongkhag, encompassing a total area of 638.8 Sq.Km with an altitude ranging from 400-3600 meters above the sea level, has twelve Gewogs, namely Barshong, Patshaling, Dunglagang, Gosaling, kikorthang, Mendrelgang, Sergithang, Phuentenchu, Rangthangling, Semjong, Tsholingkhar and Tsirangtoe. It is located along the Wangdue Phodrang – Sarpang National High way, making it easy access to business opportunities. All twelve gewogs are connected with road network.

As per the PHCB 2005, Tsirang has 3,651 households and a total population of 18,667 out of which, 17,001 live in the rural areas. The projected population for 2011, based on PHCB 2005, is 20,254.

A favorable terrain condition coupled with easy road accessibility has brought manifold changes in the socio-economic development of Tsirang. It is also considered as one of the prosperous Dzongkhags in the country.

The main source of income for the people of Tsirang are from citrus, poultry products, livestock farms, and more recently the organic-farming has become very popular with suitable climate and through the initiatives of RNR sectors.

All the gewogs are connected with electricity and Mobile services, changing the lifestyles of rural people, which may have very good impact on rural urban migration. Six gewogs already have community information centres built and soon rest of the gewogs will have the community information centers in their gewogs, making the lives of rural people easy access for information and communication technology.

Indeed, the Dzongkhag is moving in line with its Vision, "An economically vibrant, culturally rich, organic Dzongkhag with peaceful and knowledgeable society co-existing in perpetual harmony with the pristine environment".
