

# Bhutan Standard Classification Of Occupations

## PREFACE

The National Statistics Bureau (NSB) as the apex body for coordination of statistical activities is mandated to provide timely and reliable statistics for evidence-based planning and monitoring. The NSB is also responsible for development of statistical standards in line with international standards for collection, compilation and dissemination of official statistics. The Bhutan Standard Classification of Occupations (BSCO) is developed in its effort to coordinate and harmonize statistical activities in the country and to maintain statistical standards in terms of occupations.

The BSCO 2022 will be used in coding of all occupations for statistical purposes. The adoption and use of these standards in the collection, analysis and dissemination of statistics will ensure consistency and comparability of data, facilitating meaningful analysis and usage. The BSCO 2022 adopted the basic framework and principles of the International Standard Classification of Occupations (ISCO) developed by the International Labour Office (ILO). To facilitate better understanding and appropriate use of the classification, detailed write-up is provided at the unit group (four-digit) level.

The BSCO 2022 will be reviewed and updated periodically to reflect developments in the labour market, particularly the emergence of new occupations as well as to align with changes in the international standard. We are hopeful that this document will be helpful and will be extensively used for occupation coding by the statistical fraternity.

## I. BACKGROUND

The Bhutan Standard Classification of Occupations (BSCO 2022) provides a system for classifying and aggregating occupational information in line with International Standard Classification of Occupations (ISCO). It is developed based on the ISCO-08 to ensure international comparability. ISCO-08 is a four level structured classification that allows all jobs in the world to be classified into 436 unit groups. It is further aggregated into 130 minor groups, 43 sub-major groups and 10 major groups based on their similarity of skill required for jobs.

BSCO 2022 classifies the occupations according to the type of work performed and provides greater clarity in the descriptions of unit groups (four-digit) and occupations (five-digit) in the national context for the collection and dissemination of statistics from sources such as population census, labour force surveys and other surveys.

These groups form the most detailed level of the classification structure and are aggregated based on their similarity in terms of the skill level and skill specialization required for the jobs but not on the position rankings of the jobs or qualifications of an employee. The BSCO is not a framework for administrative regulation of occupations that concerns the legal or regulatory status of any occupational group.

### 1.1 Conceptual framework scope

The framework used for the design and construction is based on two main concepts: the concept of job and the concept of skill.

#### *Definitions of job and occupation*

- A job is defined as a “set of tasks and duties performed, or meant to be performed, by one person, including for an employer or in self-employment”.
- Occupation refers to the kind of work performed in a job. The concept of occupation is defined as a set of jobs whose main task and duties are characterized by a high degree of similarity”.

**Work:** According to ILO standards and United Nations 1993 System of National Accounts, work includes any kind of work or business such as collecting water or firewood, cow herding, tailoring, or making mats, etc. for the households.

## 1.2 Skill level and Skill Specialization

- Skill is defined as the ability to carry out the task and duties of a given job. Two dimensions of skills are used to arrange occupations in a group. These are skill level and skill specialization.
- Skill level defined as a function of the complexity and range of tasks and duties to be performed in an occupation.
- Skill level is measured operationally by considering one or more of:
- The nature of the work performed in an occupation in relation to the characteristics tasks and duties defined for each skill level;
- The level of formal education defined in terms of ISC of Education required for competent performance of the tasks and duties involved; and
- The amount of informal on-the-job training and /or previous experience in a related occupation required for competent performance of these tasks and duties.

### **Skill specialization is considered in terms of four concepts;**

- the field of knowledge required;
- the tools and machinery used;
- the materials worked on or with; and
- the kinds of goods and services produced.

### **Skill level - 1**

Many occupations at skill level 1 may require physical strength and or endurance, simple and routine physical or manual tasks. Completion of primary education or first stage of basic education

### **Skill level - 2**

Ability to read information such as safety instructions, to make written records of work completed, and accurately perform simple arithmetic calculations is essential. Involve in the performance of tasks such as operating machinery and electronic equipment; driving vehicles, maintenance and repair of electrical and mechanical equipment.

### **Skill level - 3**

Occupation at this skill level generally requires a high level of literacy and numeracy and well-developed interpersonal communication skills. Completion of higher secondary education and 1 -3 years of on-job training.

### **Skill level - 4**

Involve the performance of tasks that require complex problem-solving, decision-making

and creativity based on an extensive body of theoretical and factual knowledge in a specialized field.

## **II. PURPOSE AND SCOPE OF THE CLASSIFICATION**

The Bhutan Standard Classification for Occupation(BSCO) is a standard classification of the aggregated occupations in the country. It provides a system for classifying and aggregating occupational information obtained from censuses, surveys and administrative data collections. The main objectives of the BSCO is to standardize the occupation classification in the country to have both nationally and internationally comparable occupational data for the statistical purposes. The national classification is based on ISCO-08 by providing more detailed occupational groups at the fifth hierarchical level.

The BSCO maintained the consistency with the structure of the ISCO with extension to five-digit level by further subdividing the unit groups for easy referencing. The skills level and skill specialization required for the jobs were the main criteria used in defining the sub-unit groups (five-digit level) of the present edition of BSCO. The “occupation’ is the statistical unit of the classification. Occupation refers to the kind of work performed in a job. The concept of occupation is defined as a set of jobs whose main task and duties are characterized by a high degree of similarity”.

## **III. BHUTAN STANDARD CLASSIFICATION OF OCCUPATIONS (BSCO) 2022.**

The National Statistics Bureau (NSB), a custodian for collection, compilation and dissemination of all official statistics in the country is also responsible for development of statistical standards in the country and encourage its compliance. The NSB initiated the task of developing a national occupation classification with the support of various relevant government agencies. The first version of Bhutan Standard Classification of Occupations intends to provide a basis for the collection, compilation and dissemination of standard occupational statistics for Bhutan. The BSCO can assist the government agencies, researchers and other data users for evidence based decision making, planning and research purposes.

## **IV. STRUCTURE OF BHUTAN STANDARD CLASSIFICATION OF OCCUPATIONS (BSCO) 2022.**

The BSCO 2022 is structured as follows:

The BSCO is a five-digit level structured classification that allows all jobs in the world to be classified into 797 sub-unit groups and 436 unit groups. It is further aggregated into 130 minor groups, 43 sub-major groups and 10 major groups based on their similarity of skill required for jobs. These groups form the most detailed level of the classification structure and are aggregated based on their similarity in terms of the skill level and skill specialization required for the jobs.

			<b>213 Life Science Professionals</b>		
			<b>2131 Biologists, Botanists, Zoologists and Related Professionals</b>		
					Biologists, botanists, zoologists and related professionals study living organisms and their interactions with each other and with the environment.. The work in diverse fields such as botany, zoology, ecology, marine biology, genetics, immunology, pharmacology, toxicology, physiology, bacteriology and virology.Tasks include: -undertaking research in laboratories and in the field to increase scientific knowledge of living organisms. -designing and conducting experiments and tests
				21311	Biologist
				21312	Botanist
				21313	Microbiologist
				21314	Zoologist
			<b>2132 Farming, Forestry and Fisheries Advisors</b>		
					Farming, forestry and fisheries advisers study and provide assistance and advice on farm, forestry and fisheries management. They develop techniques for increasing productivity.Tasks include: -collecting and analysing data and samples related to produce, feed soil, water quality and other production options; -advising on techniques for improving the production of crops, livestock and fish, and alternative production options
				21321	Agriculture officer
				21322	Fishery Officer
				21323	Forestry officer
				21324	Horticulture Officer
				21325	Livestock officer
				21326	Feed and fodder Officer
			<b>2133 Environmental Protection Professionals</b>		
					Environmental protection professionals study and assess the effects on the environment of human activity such as air, water and noise pollution, soil contamination, climate change, toxic waste and depletion and degradation of natural resources. Tasks include: -regulates the manufacturing,processing,distribution and use of chemicals and other pollutants; -assessing the likely impact that potential or proposed activities, projects and developments may have on the environment.
				21331	Environmental officer
				21332	Park ranger
				21333	Beautification Officer
			<b>214 Engineering Professionals (excluding Electrotechnology)</b>		
			<b>2141 Industrial and Production Engineers</b>		

MAJOR	SUB-MAJOR	MINOR	UNIT	CODE	OCCUPATION DESCRIPTION
					Industrial and production engineers conduct research on the development ,improvement and implementation of integrated systems. Tasks include: -studying functional statements, organisational charts and project information to determine functions and responsibilities of workers and work units and to identify areas of duplication. -establishing work measurement programmes and analysing work samples to develop standards for labour utilisation.
				21411	Industrial and production engineer
				21412	Quality control officer
				<b>2142 Civil Engineers</b>	
					Civil engineers conduct research, advise on, design, and manage large construction projects. Tasks include: -conducting research and developing new or improved theories and methods related to civil engineering; -advising on and designing structures such as bridges, dams, docks, roads, airports, railways, canals, pipelines, waste-disposal and flood-control systems,and other constructions.
				21420	Civil engineer
				<b>2143 Environmental Engineers</b>	
					Environmental engineers conduct research, advise on, design and direct implementation of solutions to prevent, control or remedy negative impacts of human activity on the environment utilizing a variety of engineering disciplines to develop solutions to environmental problems. -inspecting industrial and municipal facilities and programmes to evaluate operational effectiveness and ensure compliance with environmental regulations.
				21430	Environmental engineer
				<b>2144 Mechanical Engineers</b>	
					Mechanical engineers conduct research; designs, builds,and tests mechanical devices.Task includes advising on engines used for propulsion of road vehicles or aircraft, or for driving industrial or other machinery,advising on other equipment for aircraft as well as suspension systems, brakes, vehicle bodies and other components of road vehicles
				21440	Mechanical engineer
				<b>2145 Chemical Engineers</b>	
					Chemical engineers conduct research, advise on and develop and design chemical manufacturing processes.The task includes:- specifying chemical production methods, materials and quality standards and ensuring that they conform to specifications; -establishing control standards and procedures to ensure safety and efficiency of chemical production operations and safety of workers operating equipment or working in close proximity to on-going chemical reactions

				<b>2146 Mining Engineers, Metallurgists and Related Professionals</b>	
					Mining engineers, metallurgists and related professionals conduct research on, design, develop and maintain commercial-scale methods of extracting metals from their ores, or minerals, water from the earth, and of developing new alloys, ceramic and other materials. The task includes: -determining most suitable methods of efficient mining and extraction, types of machinery to be used, planning layout and directing construction of shafts and tunnels; -determining drilling site and devising methods of controlling the flow of water from wells
				21461	Metallurgist
				21462	Mining engineer
				<b>2149 Engineering Professionals Not Elsewhere Classified</b>	
					This unit group covers engineering professionals not classified elsewhere in Minor Group 214: Engineering Professionals (excluding Electro technology) or in Minor Group 215: Electro technology Engineers.
				21490	Engineering professionals not elsewhere classified
				<b>215 Electro technology Engineers</b>	
				<b>2151 Electrical Engineers</b>	
					Electrical engineers conduct research and advise on, design and direct the construction and operation of electrical systems, components, motors and equipment. Tasks include: -advising on and designing power stations and systems which generate, transmit and distribute electrical power. -supervising, controlling and monitoring the operation of electrical generation, transmission and distribution systems.
				21511	Electrical engineer (general)
				21512	Power generation and distribution engineer
				<b>2152 Electronics Engineers</b>	
					Electronics engineers conduct research on, design, and direct the construction functioning, maintenance and repair of electronic systems. Tasks include: -advising on and designing electronic devices or components, circuits, semi- conductors, and embedded systems; -specifying production or installation methods, materials and quality standards and directing production or installation work of electronic products and embedded systems
				21520	Electronics engineer
				<b>2153 Telecommunications Engineers</b>	

MAJOR	SUB-MAJOR	MINOR	UNIT	CODE	OCCUPATION DESCRIPTION
				21530	Telecommunications engineers conduct research and advise on, design and direct the construction, functioning, maintenance and repair of telecommunication systems and equipment. Tasks include:- specifying production or installation methods, materials, quality and safety standards and directing production or installation work of telecommunications products and systems; -organising and directing maintenance and repair of existing telecommunication systems, motors and equipment
				21530	Telecommunications engineer
				<b>216 Architects, Planners, Surveyors and Designers</b>	
				<b>2161 Building Architects</b>	
					Building architects design commercial, industrial, institutional, residential and recreational buildings and plan and monitor their construction, maintenance and rehabilitation.Task includes:- developing new or improved architectural theories and methods and providing information regarding designs, materials and estimated building times
				21610	Building architect
				<b>2162 Landscape Architects</b>	
					Landscape architects plan and design on outdoor areas,landmarks,and structures to achieve environmental,social behavioural,or asthetic outcome .Tasks include :-inspecting sites and consulting clients,and other stakeholders to determine type, style and size of proposed buildings, parks, roads and other open spaces; -compiling and analysing site and community data about geographical and ecological features, landforms, soils, vegetation, site hydrology, visual characteristics and human-made structures, to formulate land use and development recommendations, and for preparing environmental impact statements
				21620	Landscape architect
				<b>2163 Product and Garment Designers</b>	
					Product and garment designers design and develop products for manufacture and prepare designs and specifications of products for mass, batch and one-off production.Task includes:-determining the objectives and constraints of the design brief by consulting with clients and stakeholder and detailing and documenting the selected design for production
				21630	Product and garment designer
				<b>2164 Town and Traffic Planners</b>	
					Town and traffic planners develop and implement plans and policies for the controlled use of urban and rural land and for traffic systems.Tasks include: -planning layout and coordinating development of urban areas; -compiling and analysing data on economic, legal, political, cultural, demographic, sociological, physical and environmental factors affecting land use
				21640	Urban planner
				<b>2165 Cartographers and Surveyors</b>	

MAJOR	SUB-MAJOR	MINOR	UNIT	CODE	OCCUPATION DESCRIPTION
					Cartographers and surveyors design, create and modify maps and charts using scientific and mathematical methods. Tasks include:- -surveying, measuring and describing land surfaces, mines, underground surfaces, sea, river and lake beds; -noting exact position of various features and recording survey data in digital form
				21651	Cartographer
				21652	Land surveyor
				21653	GIS Officer
<b>2166 Graphic and Multimedia Designers</b>					
					Graphic and multimedia designers design information content for visual and audio communication, publication and display using print, film, electronic, digital, and other forms of visual and audio media. Tasks include: -determining the objectives and constraints of the design brief by consulting with clients and stakeholders; -undertaking research and analysing functional communication requirements
				21661	Graphic designer
				21662	Multimedia designer
				21663	Website designer
<b>22 Health Professionals</b>					
<b>221 Medical Doctors</b>					
<b>2211 Generalist Medical Practitioners</b>					
					Generalist medical practitioners include the examination and diagnosis of patients, the prescription of medicines, performing of minor operations and provisions of different treatments for injuries, diseases and other ailments. Tasks include:-conducting physical examinations of patients and interviewing them and their families to determine their health status; -ordering laboratory tests, X-rays and other diagnostic procedures and analysing findings to determine the nature of disorders or illnesses
				22111	Medical doctor (general)
<b>2212 Specialist Medical Practitioners</b>					
					Specialist medical practitioners (medical doctors) diagnose, treat and prevent illness, disease, injury and other physical and mental impairments in humans, using specialized testing, diagnostic, medical, surgical, physical and psychiatric techniques through application of the principles and procedures of modern medicine. Tasks include:- -considering medical information provided by a referring doctor or other healthcare provider; -ordering specialized diagnostic tests to determine the nature of disorders or illnesses
					Anesthesiologist
					Cardiologist
					Dermatologist
					Emergency Medicine Specialist
					ENT Surgeon
					Forensic Specialist
					Gastroenterologist

<b>8. PLANT AND MACHINE OPERATORS AND ASSEMBLERS</b>					
	<b>81 Stationary Plant and Machine Operators</b>				
	<b>811 Mining and Mineral Processing Plant Operators</b>				
			<b>8111 Miners and Quarriers</b>		

MAJOR	SUB-MAJOR	MINOR	UNIT	CODE	OCCUPATION DESCRIPTION
					Miners and quarries operate plant, machinery and hand tools to extract rocks, minerals ores and other deposits from underground and surface mines and quarries.
				81111	Bogger operator(boomer, jumbo operator)
				81112	Driller (mining)
				81113	Miner (including plant operator)
				81114	Quarrier(including plant operator)
				81115	Dragline operator
				<b>8112 Mineral and Stone Processing Plant Operators</b>	
					Mineral and stone processing plant operators monitor and operate machinery and equipment for processing rocks, minerals and stone to recover refined products for immediate use or further processing.
				81121	Crusher operator (mineral or stone processing)
				81122	Machine operator (stone cutting or processing)
				<b>8113 Well Drillers and Borers and Related Workers</b>	
					Well drillers and borers and other mining related workers operate, assemble and monitor machines for cutting channels in mine workforce or for the drilling and sinking of wells, extract ore, liquids and gases or for a variety of other purposes.
				81131	Boring equipment operator
				81132	Derrick operator
				81133	Drilling plant operator
				<b>8114 Cement, Stone and Other Mineral Products Machine Operators</b>	
					They monitor and operate machines for manufacturing and finishing precast concrete, bitumen and stone products and making cast stone for building purposes.
				81141	Cast concrete product machine operator
				81142	Concrete mixing plant operator (including concrete mixer operator)
				81143	Concrete pump operator
				<b>812 Metal Processing and Finishing Plant Operators</b>	
				<b>8121 Metal Processing Plant Operators</b>	
					Metal processing plant operators monitor, operate, adjust and maintain single-function process machinery and equipment to process and convert mineral ores and refine, harden, roll and extrude metals.
				81211	Metal extrusion plant operator
				81212	Metal heat treating operator
				81213	ladle pourer
				81214	Steel roller
				<b>8122 Metal Finishing, Plating and Coating Machine Operators</b>	
					Metal finishing, plating and coating machine operators monitor and operate equipment which finishes, plates and coats metal articles or parts.
				81221	Metal coating machine operator
				81222	Metal finishing machine operator
				81223	Metal plating machine operator
				<b>813 Chemical and Photographic Products Plant and Machine Operators</b>	
				<b>8131 Chemical Products Plant and Machine Operators</b>	

MAJOR	SUB-MAJOR	MINOR	UNIT	CODE	OCCUPATION DESCRIPTION
					Tasked to monitor and operate chemical plants, processing units and equipment which distil, filter, separate, heat or refine chemicals, to blend, mix, process and package a wide range of chemical products.
				81311	Pharmaceutical products machine operator
				81312	Toiletry products machine operator(soap,toilet paper,etc...)
				<b>8132 Photographic Products Machine Operators</b>	
					Photographic products machine operators operate and monitor equipment which makes photographic film and paper and which processes exposed photographic film and makes prints.
				81320	Photographic products machine operator
				<b>814 Rubber, Plastic and Paper Products Machine Operators</b>	
				<b>8141 Rubber Products Machine Operators</b>	
					Monitor and operate machines which knead and blend rubber and rubber compounds to produce various components and products from natural and synthetic rubber, such as moulded footwear, domestic articles, insulating materials, industrial accessories or tyres.
				81411	Rubber products machine operator (polythene)
				81412	Tyre repairer(tyre retreading/resoling)
				<b>8142 Plastic Products Machine Operators</b>	
					Plastic products machine operators monitor and operate machines which knead and blend compounds to obtain plastic materials, which make various plastic components and articles.
				81420	Plastic products machine operator(plastics bottle blower, extrusion, plastic bag)
				<b>8143 Paper Products Machine Operators</b>	
					Paper products machine operators monitor and operate machines which produce boxes, envelopes, bags and other goods from paper, paperboard and other similar materials.
				81430	Paper products machine operator(cardboard, envelope and paper bag, egg tray,etc.)
				<b>815 Textile, Fur and Leather Products Machine Operators</b>	
				<b>8151 Fibre Preparing, Spinning and Winding Machine Operators</b>	
					They monitor and operate machines which prepare fibres, spin, twist and wind yarn and thread from natural textile fibres
				81511	Fibre machine operator
				81512	Thread and yarn machine operator(spinning and winding)
				<b>8152 Weaving and Knitting Machine Operators</b>	
				81520	Weaving and knitting machine operator
				<b>8153 Sewing Machine Operators</b>	
					They operate button hole making and eyelet holing machines to cut holes, stitch around holes, stitch buttons and fix eyelets to garments.
				81531	Sewing machine operator
				81532	Embroidery machine operator
				<b>8154 Bleaching, Dyeing and Fabric Cleaning Machine Operators</b>	
				81541	Dyeing machine operator

MAJOR	SUB-MAJOR	MINOR	UNIT	CODE	OCCUPATION DESCRIPTION
				81542	Textile bleaching machine operator
				<b>8155 Fur and Leather Preparing Machine Operators</b>	
				81550	Fur and leather preparing machine operator

				<b>8182 Steam Engine and Boiler Operators</b>	
					Maintain and operate various types of steam engines, biolers, turbines and auxillary equipment.
				81821	Boiler operator
				81822	Stoker
				<b>8183 Packing, Bottling and Labelling Machine Operators</b>	
					Packing, bottling and labelling machine operators monitor and operate machines which weigh, pack and label various products or fill different containers with products.
				81831	Bottle filler
				81832	Canning machine operator
				81833	Labelling machine operator
				81834	Packing/wrapping machine operator
				<b>8189 Stationary Plant and Machine Operators Not Elsewhere Classified</b>	
					Stationary plant and machine operator not elsewhere classified (Cable and rope splicing machine operator, incense making machine operator)
				81890	Stationary Plant and Machine Operators Not Elsewhere Classified
				<b>82 Assemblers</b>	
				<b>821 Assemblers</b>	
				<b>8211 Mechanical Machinery Assemblers</b>	
					Mechanical machinery assemblers assemble, according to procedures strictly laid down, component parts of mechanical machinery such as engines, motors and turbines.
				82111	Motor Vehicle and machineries assembler (engine, gearbox, etC.)
				82112	Turbine assembler
				<b>8212 Electrical and Electronic Equipment Assemblers</b>	
					Assemble or modify, according to strictly laid down procedures, components of electrical, electro-mechanical and electronic equipment.
				82121	Electrical equipment assembler
				82122	Electromechanical equipment assembler
				82123	Electronic equipment assembler (telephone, computer, etc....)
				<b>8219 Assemblers Not Elsewhere Classified</b>	
					Assemblers not elsewhere classified assemble, according to strictly laid down procedures, various products that do not include electronic or electrical components.
				82190	Assembler not elsewhere classified (cycle assembler)
				<b>83 Drivers and Mobile Plant Operators</b>	
				<b>831 Locomotive Engine Drivers and Related Workers</b>	
				<b>8311 Locomotive Engine Drivers</b>	
					Drive or assist in driving locomotive engines to transport passengers and freight.

MAJOR	SUB-MAJOR	MINOR	UNIT	CODE	OCCUPATION DESCRIPTION
				83110	Locomotive engine driver
				<b>8312 Railway Brake, Signal and Switch Operators</b>	
					Control the movement of railway traffic by operating signals and switching rolling stock.
